

# Control

## Garbage

The world might end, the night might fall  
Rain on down and cover us all  
And drown us with the burdens of our sins  
Maybe I'll look you in the eye  
Tell you, "you don't wanna die"  
Maybe I'll hold my breath and jump right in  
Maybe I'll hold my breath and jump right in

I never saw you coming from inside my little prison  
Your autograph would really buy me time  
If you think you are the reason  
Give me something to believe in  
It's always darkest right before the dawn  
It's always darkest right before the dawn

I confess I've lost control  
I let my guard down, I let the truth out  
Oh, I confess I've lost control  
I let my guard down, I let the truth out

A final celebration, a bad hallucination  
Flip a coin and see which way I fall  
The charlatan is singing  
We love to watch him killing  
And suffer through a never ending day  
Suffer through a never ending day

I can feel I've lost control  
I let my guard down, I let the truth out  
Oh, I can feel I've lost control  
You let your guard down, you let the truth out

I was trapped, like a prisoner in my skin  
I was punished like an animal for my sins  
I was bound, and I was caged, I was tricked  
I was suffocating, I was suffocating

I can feel I've lost control  
Oh, I concede we've lost control  
I was suffocating

I confess I've lost control  
I was suffocating, I was suffocating  
Oh, I concede we've lost control  
Feel my hunger, feel my hunger

Ooh, ooh  
Ooh, ooh  
I was suffocating  
Ooh, ooh  
Ooh, ooh
