

Sleep Together

Garbage

I got you crawling up a mountain
Hanging round my neck
I got you twisted round my finger
Crawling round my legs

The emptiness, the crazyness
Satisfy this hungriness
Darling, how would it feel?

If we sleep together
Will you like me better?
If we come together
We'll go down forever
If we sleep together
Will I like you better?
If we come together
Prove it now or never

Make me a pretty person, make me
Feel like I belong
Make me hard and make me happy
Make me beautiful

The emptiness, the crazyness
Satisfy this hungriness
Darling, how would it feel?

If we sleep together
Will you like me better?
If we come together
We'll go down forever
If we sleep together
Will I like you better?
If we come together
Prove it now or never

(If we sleep together) Nothing satisfies me baby
(If we sleep together) I wear something pretty baby
(If we sleep together) Give me what I crave now baby
(If we sleep together) Save the rest for later baby
(If we sleep together) You will drive me crazy baby
(If we sleep together) Save the last for you my baby

If we sleep together

If we sleep together
