

# So We Can Stay Alive

Garbage

Imagine this: we make things right  
So beautiful, we clean tonight  
To all our dreams, we pin them up  
We lose our minds if we lose our hopes  
We swear to change, but we bottle in  
Stick to our guns and all our sins  
We barely feel, we drink to it  
We might cheat death if we worship it

So we can stay alive  
Our sex, our power, our drive  
We lose ourselves inside  
So we can feel alive

You're the one who should be on trial  
For all your hate and your denial  
Be careful what it is you break  
Every broken thing can't be fixed  
And all those fragile things we are  
They find their voice, they find their power  
They take a grip around your throat  
They keep squeezing till your life runs out

So we can stay alive  
Our sex, our power, our drive  
We lose ourselves inside  
So we can feel alive

(Masochistic victim sees  
His victor vanquish fallacy  
There's lust, our love, our lives, our blindness)

(We can feel alive)  
All alone, fight the fear  
Find the sex, in every way  
(We can feel alive)  
All our lies, falling [?]  
All our hate, we're on our knees  
(We can feel)  
Feel respect, feel this way

We can stay alive  
We can stay alive  
We can stay alive  
We can stay alive  
We can stay alive  
We can stay alive
