## Why Don't You Come Over

It's been a crazy time for us Of pushing all our limits Snapping necks and breaking balls Now you'd have done the same But you were baking biscuits While I went, bent the law Sacrificing something As you counted all my flaws

Why don't you come over So why don't you come over

You wanna live freely Don't wanna die You want it? You got it You chase the high You wanna be out there You wanna race You wanna take over Just gotta play

Why don't you come over So why don't you come over and walk in my shoes

I'm a good person Don't wanna fight with no one But you piss me off You keep pushing, pushing You'd best step off the gas boy All best are off Fuck you You taste like toxic poison I'll wash my hands of you

Why don't you come over So why don't you come over and walk in my shoes Walk in my shoes Why don't you come over

## Garbage

Why	don't	you	come	over
