## **Beautiful Rage**

## **Gareth Emery**

We're falling Fading Gonna fade out Surrender searching Making it count Holding hoping Never enough One last moment

As the stars die out We're burning and it's beautiful Cause it all comes down See the sky fall down

I'm dancing in the flames tonight The fire heals the pain As the stars die out We're burning in a beautiful rage

We're falling Fading We're falling Fading

As the stars die out We're burning and it's beautiful Cause it all comes down See the sky fall down

We're dancing in the flames tonight The fire heals the pain As the stars die out We're burning in a beautiful rage In a beautiful rage

As the stars die out We're burning and it's beautiful Cause it all comes down See the sky fall down

We're dancing in the flames tonight The fire heals the pain As the stars die out We're burning in a beautiful rage In a beautiful rage
