

# Dynamite

Gareth Emery

Watching the sky light fall to black  
Feeling like the lights never coming back, no  
When it's dark, and there's no one  
I will be here, I'll be here

And its all for you  
Every spark in every flame  
All for you  
And all the stars they know your name

Light a blazing light, ready to ignite  
We are made of dynamite  
Fireflies falling through the night  
We are made of dynamite

Light a blazing light, ready to ignite  
We are made of dynamite  
Fireflies falling through the night  
We are made of dynamite

Light a blazing light, ready to ignite  
We are made of dynamite  
Fireflies falling through the night  
We are made of dynamite

Blazing light  
We'll show  
Blazing light  
We'll show
