

# Nothing's Gonna Stop Us Now

Gareth Gates

Maybe I've been too superstitious  
Afraid of being too naive  
Never been enough for taking chances  
But there's another side of me  
Love is a winding road  
We can make it through together  
And we'll never give up

I've made up my mind this time  
I'm gonna break through all these chains  
I'm willing to risk it all  
To take a fall  
There's nothing's gonna stop us now  
I'll be there through good and bad  
Through every step along the way  
And no one can break the spell  
Oh I can tell  
Nothing's gonna stop us now  
Stop us now

People say I've been acting crazy  
Every now and then  
But they don't understand this feeling  
You've opened up so deep inside  
Love is a winding road  
And we'll make it last forever  
And we'll never give up

I've made up my mind this time  
I'm gonna break through all these chains  
I'm willing to risk it all  
To take a fall  
There's nothing's gonna stop us now  
I'll be there through good and bad  
Through every step along the way  
And no one can break the spell  
Oh I can tell  
Nothing's gonna stop us now  
Stop us now

Nothing's gonna stop us now  
Stop us now

Maybe I've been too superstitious, hm  
Love is a winding road  
But I thought

I've made up my mind this time  
I'm gonna break through all these chains  
I'm willing to risk it all  
To take a fall  
There's nothing's gonna stop us now  
I'll be there through good and bad  
Through every step along the way  
And no one can break the spell  
Oh I can tell  
Nothing's gonna stop us now

Stop us now

A million to escape you, baby  
Nothing's gonna stop us now  
Stop us now
