

# Baby, Let's Lay Down and Dance

Garth Brooks

I get this feeling that I can't explain  
Every time I see your face or hear your name  
I just go crazy, thinking, baby, this may be my chance  
What would you say to me if I said "Baby, let's lay down and dance"

I got to tell you, girl, you drive me wild  
Every time I see you dance I see that smile  
My world gets hazy and I'm moving like I'm in a trance  
Whoa, I know it's crazy, but baby, let's lay down and dance

When it comes to love my heart is black and it's blue  
Swore I was through with romance  
But girl you're something and I'm counting on you  
You're my brand new second chance

My friends all tell me that I'm not your kind  
They say I better pray your love is blind  
You got to save me, I'm a victim of your circumstance  
Whoa, I know it's crazy, but baby, let's lay down and dance

When it comes to love my heart is black and it's blue  
Swore I was through with romance  
But girl you're something and I'm counting on you  
You're my brand new second chance

I got to tell you, girl, you drive me wild  
I've never known no one with quite your style  
I'm going crazy, thinking, baby, this may be my chance  
What would you say to me if I said "Baby, let's lay down and dance"  
Girl, I know it's crazy, but baby, let's lay down and dance
