

# Cowboys Forever

Garth Brooks

They were carved from the canyons  
Raised on the plains  
Made for stampedes and Cowtown saloons  
They choked on the trail dust  
Slept out in the rain  
Led hard lives that ended too soon  
That one generation that transformed a nation  
As descendants of those chosen few

We're cowboys, cowboys forever  
We'll stand together as long as we live and breathe  
We're cowboys, cowboys forever  
We've always been, it's what we'll always be  
Cowboys forever

Now they're cops in the city  
Their lives on the line  
They're truck drivers hauling that freight  
They're young soldiers leaving their loved ones behind  
They're all those who pull their own weight  
That one generation that transformed a nation  
As the decedents  
We all salute here

We're cowboys, cowboys forever  
We'll ride together as long as we live and breathe  
We're cowboys, cowboys forever  
We've always been, it's what we'll always be  
We're cowboys forever

We're cowboys, cowboys forever  
We'll ride together as long as we live and breathe  
We're cowboys, cowboys forever  
We've always been, it's what we'll always be  
We're cowboys forever
