

# Honky-Tonk Somewhere

Garth Brooks

Help me, 911 operator, got a Friday night emergency  
I need nursin' cause I'm hurtin' from a long week workin'  
And I'm thirstin' for a remedy

I need a red-head, brunette, or blonde  
Angel have mercy that will put me through intensive care  
There's gotta be a honky-tonk somewhere

Hang on, don't hang up on me lady  
Gotta take me to the promised land  
Cause I'm dying to see something like a jukejoint jumpin'  
To the thumpin' little five piece band

I need a red dirt n swingin'  
Anything that's country  
Karaoke, I don't care  
There's gotta be a honky-tonk somewhere

There's gotta be a honky-tonk somewhere  
There's gotta be a honky-tonk  
Girl you gotta get me there

I've tried the phone at the road  
Mapped Siri, where's the party at  
That ain't got me anywhere  
There's gotta be a honky-tonk somewhere

Last call, answer operater  
I'm afraid I'm runnin' out of time  
I know I sound broken but I just keep hopin'  
for an open glowin' neon sign

Maybe this is crazy but I'm thinkin' baby  
Maybe later you could meet me there  
There's gotta be a honky-tonk somewhere

There's gotta be a honky-tonk somewhere  
There's gotta be a honky-tonk  
Girl you gotta get me there

I've tried the phone at the road  
Mapped Siri, where's the party at  
That ain't got me anywhere  
There's gotta be a honky-tonk somewhere  
Out there's gotta be a honky-tonk somewhere
