

People Loving People

Garth Brooks

Doctor, you ain't got a pill
For whatever's making this world I'll
You can't get forgiveness at the store
And peace, it's a politician's war
You won't find no resolution in the bottom of a bottle
In the stars or Aristotle
The only answer to the problem is

People loving people
That's the enemy of everything that's evil
Ain't no quick fix at the end of a needle
It's just people loving people

Words aren't what they seem to be
Talk is cheap and lies are free
We fear what we don't understand
And we've been scared since time began
All the colors and the cultures
Circle 'round us on a spindle
It'd a complicated riddle
But the solution is so simple

It's people loving people
That's the enemy of everything that's evil
Ain't no quick fix at the end of a needle
It's just people loving people

You can pawn it off on kings and queens
And those behind the curtain
Say one can't make a difference
In a world so full of hurting
But I believe the remedy
Starts right here with you and me

People loving people
That's the enemy of everything that's evil
Ain't no quick fix at the end of a needle
It's just people loving people
It's just people loving people
It's just people loving people
