

From Where I'm Sitting

Gary Allan

He asked her to dance three songs ago
Now she pulls him closer as the music slows
The lights are growin' dim it's just her and him and the band
Funny, I used to love this song
I though it was our song but I guess I was wrong
From where I'm sittin' I can see where I stand

From where I'm sittin' I can see where I stand
She's got her head on his shoulder and her heart in his hands
Thing's are pretty clear when a fool understands
Lord, from where I'm sittin' I can see where I stand

I've never seen her dance like that before
Don't think I can take much of this anymore
He's no longer the stranger and it looks like I am
I always dreamed I'd see that look in her eyes
But I never dreamed it would be for some other guy
And from where I'm sittin' I can see where I stand
