

One More Time

Gary Allan

What will I say?
Lookin' back upon this life
Standin' there at the pearly gates
To a golden street paradise
Feelin' humble, no room up there for pride
What will I say?

Well, I know that I've
Messed up more than a time or two
I've lived like hell, I've done it well
And I've got the scars to prove
When I show up alone at heaven's door
Will I be proud of what I've done
Or will I be begging for

One more time
One more chance
One more trip around the sun
One more dance
Another day
To get it right
Yeah, one more kiss
One more touch
Another song
Another night
Just one more time

Just wanna make sure
That I did it all right
I just wanna make sure
I loved and cared and gave with all my might
'Cause there'll be a moment
Yeah, there always is
When I won't get another day like this

One more time
One more chance
One more trip around the sun
One more dance
Another day
To get it right
Yeah, one more kiss
One more touch
Another song
Another night
Just one more time
