

That Ain't Gonna Fly

Gary Allan

Well I'm gonna show her
That I can forget her
That little girls lovin'
Meant nothin' to me

If you go lookin' at the bottom
of a whiskey bottle, that's where I'll be
Even though, I already know

That ain't gonna fly, that ain't gonna fly
No it didn't work then, and it dont work now
But do or die, I'm gonna try
To enjoy the ride, all the way down

West Coast cutie, comin on to me
Mama tried to warn ya California blonde
Built like a 10, young like a 20
Party til the money is gone

It'll be fun, but in the long run
That ain't gonna fly, that ain't gonna fly
No it didn't work then, and it dont work now
But do or die, I'm gonna try
To enjoy the ride, all the way down
