Dying Inside

Gary Barlow

```
1. How can I make sure no one notices me
   Dont wanna conversation with nobody
   And it hurts too much to say how I feel
   What you dont know, is all I know
   How can I make sure that I fool everyone
   Gonna wear a suit and tie and put my bravest face on
   And its far too deep to show you this wound
   No it wont heal no time soon
   Nobody knows what Im going through

R: Im dyin inside
   Who knows what Im thinking
   What Im trying to hide
   Yeh Im dyin all night
   Im breathing but I cant feel life
   Im smiling but Im dyin inside

2. How can I make sure Im invisible
   Or find just a simple phrase that may say it all
   Cos its far too soon and not the right time
   What Ive seen was for my eyes
   And how can I make sure no one worries for me
   Cos I dont need helping hand and don't want sympathy
   Dont know what I need but know what I dont
   What you cant see it feels so broke
   That you cant see is how Ill cope

R: Im dyin inside
   Who knows what Im thinking
   What Im trying to hide
   Yeh Im dyin all night
   Im breathing but I cant feel life
   Im smiling but Im dyin inside

*: Want everyone around to think that Im alright
   Hope they assume Ive left the dark and found the light
   Want them to think that I dont cry myself to sleep at night

   Oooooh
   Oooooh

R: Yeh Im dyin inside...
```
