Let Me Go

Gary Barlow

1. A room full of sadness
   A broken heart
   And only me to blame
   For every single part

2. No Science or Religion
   Could make this whole
   To be loved, but never loved
   To have, but never hold

*: It's a life alone, and a desperate need
   To be held to be loved so
   This is gonna take a bit of getting used to,
   but I know what's right for you

R: Fly high and let me go
   That sky will save your soul
   When you pass by then you'll know
   That this gonna take a bit of getting used to
   but I know what's right for you
   Let me go

3. A head full of madness
   And no where safe
   When tears aren't big enough,
   and love turns into hate

*: It's a life alone...

R: Fly high and let me go...

*: So let me go life will get better
   Find the love I never gave ya
   I know you lie there waiting all night long,
   so find where you belong

   Fly high and let me go
   (Let me go)
   That sky will save your soul
   (Let it save your soul tonight)
   Fly high and let me go
   (Let me go let me go)
   That sky will save your soul
   But this gonna take a bit of getting used to
   but I know what's right for you
   Let me go
