

# Small Town Girls

Gary Barlow

1. Small town girls live life sweetly  
They don't waste time dreaming of opportunity  
Small town girls learn quickly  
They live for who they are not who they wanna be
- X: Upon the greenest grass they laugh and grow  
The man who makes the boundaries no one knows
- R: Small town girls they make the whole world turn  
Don't get their fingers burned quite as easy as the rest, oh oh  
Small town girls they make my heart collapse  
Such a shame the Bible never said that  
The foundations of the world, they are built on small town girls
2. Small town girls stop at nothing  
They take no prisoners, never try small talking  
And what they have is quite unique  
Their hearts are big enough to wear on their sleeves
- X: Upon the greenest...
- R: Small town girls...
- \*: Everybody knows they're quite a chase  
When everybody looks they hide their face
3. Small town girls are innocent  
With rosy cheeks and grassy knees their life is heaven sent  
Most girls marry young and have some kids  
But who am I to tell them what they've missed
- R: Small town girls...
- Small town girls
