

# This House

Gary Barlow

This house, built from stone  
Bricks and mortar  
Love and hope  
Voices, children cry  
Parents teach us  
Wrong from right  
What makes your heart ache  
What makes us thankful for every day  
It's always the brightest light  
That takes you home each night  
[Chorus]  
Open the doors and windows  
Whole world inside these four walls  
More than a building  
Floor to the ceiling  
A picture of love  
That's this house  
Peaceful, home sweet home  
Stuff needs fixing but nothing's broke  
Full hearts, passing time  
So glad this place is  
Yours and mine  
What makes you soul warm  
What makes us be the people we've become  
It's always the brightest light  
That takes you home each night  
[Repeat chorus x2]  
These walls  
Full of heart  
Brothers, sisters  
Play their part  
From innocence to teenage fights  
Christenings, weddings  
This is life  
[Repeat chorus]  
That's this house
