

# Your Love Stays With Me

Gary Chapman

It's dark in here  
Feel so alone  
But there's a light  
That somebody just turned on  
It opens my eyes  
It lets me see  
And once again  
It amazes me  
How your love  
Stays with me  
When shadows fall  
And everybody leaves  
I'm not alone  
I know I'll never be  
Your love stays with me  
When cold rains fall  
Against my skin  
Well it chills my body  
But not the soul within  
'Cause I got a fire  
And it burns so bright  
And it keeps me warm  
Through the longest night  
Oh, how your love  
Stays with me  
When the shadows fall  
And everybody leaves  
I'm not alone  
I know I'll never be  
Your love stays with me  
Your love stays with me
