

Please Come Home

Gary Clark Jr.

My love is with you
Even though you're far away
You make me love you
And that's where my love will stay

Those times I get lonely
You're the one who truly knows me
I can tell it in the way you talk
You show me

Why don't you please come home
Come on home, girl
You've been gone way too long
Come on home, girl

As time goes by
My days go by slower
My nights are getting colder
And my mind has gone astray
