

## Please Come Home

Gary Clark Jr.

My love is with you  
Even though you're far away  
You make me love you  
And that's where my love will stay

Those times I get lonely  
You're the one who truly knows me  
I can tell it in the way you talk  
You show me

Why don't you please come home  
Come on home, girl  
You've been gone way too long  
Come on home, girl

As time goes by  
My days go by slower  
My nights are getting colder  
And my mind has gone astray
