

# Happy Birthday

Gary Glitter

Eleven fifty-nine  
Almost time, one more minute to go  
I can hardly wait, in this state, don't my feelings show  
All we gotta do, me and you, see it through, when we do  
What a big surprise I've got for you

Then I am gonna do, things to you, I've never done before  
When you're old enough, ha, I do my stuff, till you beg for more  
Now the time has come, have your fun, bang you come, give me some  
Look out birthday baby, here I come

Happy birthday, I've got to give you such a happy birthday  
You're gonna get it on your happy birthday  
and now you're grown up it's a happy birthday  
So tired of waiting for your happy birthday  
I'll make you happy on your happy birthday  
I'll light a candle on your happy birthday  
You're just too ready for today

Just you and though didn't know, days could be so long  
Sticking to the roof like a fool, hanging on and on  
Now a million home, you're alone, almost grown, on your own  
Move a little closer what I say

Happy birthday, I've got to give you such a happy birthday  
You're gonna get it on your happy birthday  
and now you're grown up it's a happy birthday  
So tired of waiting for your happy birthday  
I've got to give you such a happy birthday  
You're gonna get it on your happy birthday  
and now you're grown up it's a happy birthday  
So tired of waiting for your happy birthday  
I'll make you happy on your happy birthday, aw  
I'll light a candle on your happy birthday  
You're just too ready for today
