

# Engines

Gary Go

So this is where the engines start  
Oh this is where we find the words I'll never talk  
Is this where the fuel runs out  
Or the starting point to turn it round  
Lift the brakes lets not waste time cause

Your love is my life  
I don't know why we're fighting  
When we're on the same side  
Stop here we're stalling  
I cant keep looking backwards  
Gotta live for now not then  
So engines can start again

Oh this is where the penny drops  
We only seem to look for it when its lost  
Oh there were times we made the traffic stop  
But now the bright lights don't notice us at all  
Oh Lift the weights lets not waste time  
With the little things that stop us moving

Cause your love is my life  
I don't know why we're fighting  
When we're on the same side  
Stop here we're stalling  
I cant keep looking backwards  
Gotta live for now not then  
So engines can start again

My happy memory is home  
Back when the engines started on their own  
Lost in so many different places  
So many conversations  
Faces I don't wanna face  
Without your love in my life  
I don't know where were going  
But I cant wait to arrive

Cause your love is my life  
I don't know why were fighting  
When we're on the same side  
Stop here were stalling  
I cant keep looking backwards  
Gotta live for now not then  
So engines can start  
So engines can start  
Engines can start again
