

Refuse To Lose

Gary Go

I took my eye off the ball, I took my foot off the break
'Cause things didn't go the way that I planned
I wanna not want it all, I want to give what I take
It's not how you leap, it's how you land, it's how you land

It's time to liberate my liberty
It's not beyond you, it's not beyond me
Mind over the matter, I refuse to lose
From now on, from now on

If it takes one to know one then it takes two to know me
There's too much comfort in consistency
I could be more than I am but I cannot be more than me
I wanna tune in to another frequency

It's time to liberate my liberty
It's not beyond you, it's not beyond me, no
Mind over the matter, I refuse to lose
From now on, from now on

In time I'll be anodyne
Free from pain, free from pain
If you look hard I think you'll find
We're the same, we're the same

With this in mind I am kind
To almost everyone that I meet
We're all fighting our own battle
And no one likes defeat, no one likes defeat

It's time to liberate my liberty
It's not beyond you, it's not beyond me
Mind over the matter, I've been walking tightropes
For too long, for too long

It's simple rationality
It's not beyond you, it's not beyond me
I've found self stability, I've been walking tightropes
For too long, for too long

There's no more soul searching to do
It's not beyond them, it's not beyond you
Don't question your ability and refuse to lose
From now on, from now on
