

Little Greenie

Gary Jules

Little greenie,
In-betweenie,
You're standing on the earth.
Turn the lights on
For protection
Or whatever it's worth.

You know
That in spite of all the things that you show
You're fucking around with something
You cannot control.
If it scares you so
Then make it go away.

Beauty's on a bender, mmm,
Thinking he's a star.
You look so happy in the pictures;
I wonder if you are.

You know
I've been to all the places you go,
Fucking around, so busy
Filling in the holes.
If it scares you so
Then make it go away.

If it scares you so then
Make it go away.

Following too far down,
Following too far down,
The living here was easy
When my boys were still around.

Following too far down,
Following too far down,
Ah, wasted days and second chances;
There's nothing more to say.

If it scares you so
Then make it go away.
If it scares you so
Then make it go away.
