

Owen Down

Gary Jules

Baby, I would smash your pretty face just
To make you feel wanted,
Take you by your long white throat to show
How much I care.
Guitar on my bed where
Your body's supposed to be;
If I could turn you inside out,
I'd swallow you down.

Down, down
Down, down, down
Down, down
Down, down, down

Baby, I would carve your name in my arm,
Cut my skin to let you under.
And if you promise not to leave
I might let you outside.
She is all around me now;
If I could turn her inside out,
I'd swallow her down.

Down, down
Down, down, down

Throw me a line;
You know I'm bound to drown.
And do you need me tonight?
You know you've seen me around.
We go down, down
Down, down, down.
