

# Nowhere Fast

Gary Moore

Frozen in time, lost in a space  
Your life is movin' at a dead snail's pace  
No momentum or trajectory for you  
Still born treacle that you're waiting through  
All the time wonderin' if the future's passed  
All the signs are sayin' nowhere fast

How did you get here, no one can say  
Looking too hard, you can lose your way  
Don't try to blame nobody else  
There's only one person who can help yourself  
All the time you know that it just can't last  
All the signs are sayin' nowhere fast

Dig a big hole, sink in the rut  
Stick in the mud till your senses shut  
Concrete sand around your feet  
Marching in circles to the drudgy beat  
All the time in the world that's passed  
And still you're goin' nowhere fast  
Will you still remember as you breathe your last  
All the time you wasted goin' nowhere fast  
Nowhere fast
