## **Texas Strut**

**Gary Moore** 

One-two-three-four Let me tell you about the Texas blues

I went down south to Dallas To hear those cowboys wail Came across that Billy Gibbons Ridin' on that ZZ trail

I just can't lose with the Texas blues I said I just can't lose with the Texas blues The Texas blues

Got myself in Double Trouble When I saw that Texas Flood Stevie said The Sky Is Crying Superstition's in his blood

I just can't lose with the Texas blues I said I just can't lose with the Texas blues The Texas blues How-how-how

Come on!

I heard that Houston Twister He could run you off the tracks When he plays that Cold Cold Feeling You get the shivers down your back

I just can't lose with the Texas blues I said I just can't lose with the Texas blues The Texas blues A-how-how-how-how

Well, I'm going back to Dallas Won't go waitin' for no bus Ridin' off into the sunset You won't see my heels for dust

I just can't lose with the Texas blues I said I just can't lose with the Texas blues I said I just can't lose with the Texas blues And I just can't lose with the Texas blues The Texas blues Texas blues A-how-how-how A-how-how-how
