

# A Shadow Falls on Me

Gary Numan

Every time I feel that I understand  
A shadow falls on me, takes it away  
Every time I try to walk away  
A shadow falls on me and tells me to stay  
When will it end?

When will it end?

Every time I dream you will come home  
A shadow falls on me and I wake up alone  
Every time I scream for someone to blame  
A shadow falls on me and whispers my name  
When will it end?

When will it end?

Every time I breathe, locked in this room  
A shadow falls on me and says it's too soon  
Every time I die and lay by your side  
A shadow falls on me and keeps me alive  
When will it end?

When will it end?
