## **Listen to My Voice**

**Gary Numan** 

Listen to my voice And please try to understand The one you call Messiah is a lie

You are not the plan And your beginning to annoy You are just a game and It has won

You will never see The places promised by your faith You will never know eternal peace

The God you love is gone He lies broken by your shame The thing that took His place already died

It will send Angels Send black Angels for you

I am just a voice That no-one else will hear Only you are pure enough for truth

You must write 'The Book' And then tear away belief Only you can save the light of man

It will send Angels Send black Angels for you
