

## Even for a While

Gary Valenciano

Why do hearts feel the way they do  
Why does men wanna say that I love you  
Till the end of time  
Till I lose my mind  
Till it's over and left so far behind

I just can't keep it all inside  
So unbelievable how much I've tried  
Yet I call for you  
I long for you  
And I say the words I wish you'd want to here  
Though you're never here

Chorus:

Our hearts and though they beat as one  
But in time, the time for us will never come  
So I, I just go on  
And just remember those eyes  
That look right through my heart  
The smile that shows what's in you  
That makes me wanna cry  
Coz I know  
I'll never have you even for a while

Now all is said and done it seems  
I keep remembering what I would call a dream  
Where you came true  
For a minute or two  
That was all the time it took  
To make me know you had to go

Repeat Chorus

Cause I know  
I'll never have you...  
And I know  
I'll never have you  
Even for a while...
