

He Won't Let Go

Gary Valenciano

Be not afraid
Though it seems like
the storm will never end
Be not dismay
when it seems like you haven't got a friend
The storm is reaching
But you don't have to run and hide
The Lord is faithful
To heal the lonely heart inside

CHORUS:

Please be still,
the Father loves you
Please be still,
the Father loves you
And no matter where you are
or where you've been
I am sure, He wants you to know
HE WON'T LET GO

Be not afraid
Though it seems like the hurt will never end
Be still and know that
the Father will never let you go
The pain is reaching
But you don't have to run and hide
The Lord is faithful
To heal that hurting heart inside
Repeat Chorus
And no matter where you are
Or where you've been
I am sure, He wants you to know
HE WON'T LET GO!
