

## Made To Love You

Gary Wright

Now, I don't need to travel far  
And I don't need to be a star  
I don't need no one, to tell me if I'm right  
You're the only one that matters in my life

I was made to love you  
Love you, love you alone  
Yes, I was made to love you  
Love you, love you alone

I don't think I can pretend, no  
Cause baby, you're more than just a friend  
We grew up together, living separate lives  
Now, we need each other, what a big surprise

I was made to love you  
Love you, love you alone  
Yes, I was made to love you  
Love you, love you alone

Love you, love you  
Love you, love you alone  
I was made to love

Behind my dreams are thoughts and feelings  
They're tellin' me life lines never change  
I believe in karma and I believe in you  
And I feel somehow you believe in me too

I was made to love you  
Love you, love you alone  
I was made to love you  
Love you, love you alone

I was made to love you  
Love you, love you alone  
I was made to love you  
Yes, I was made to love
