

## Never Alone Again

Gates of Ishtar

View my secrets, Crawl inside  
Taste and feel all my pain  
Stand beside me all for one  
Never leave me again  
Help me find the truth beyond  
Words buried by dust  
Open up the slanderer's den  
Tear and slaughter their lies

Come with me, take my hand  
Far away from the promised land  
Face your fears, As one we stand  
Never alone again

Close the chapter, Set things straight  
Fools guided by christ,  
cross our path and you're bound to die  
Come, Join us tonight  
Tear your blindfold, cleanse your mind  
Lost, Setting the way  
Find the one of darkness spawned  
Kill, Enlighten assay
