

Perpetual Dawn

Gates of Ishtar

Time has taken it's toll
Years passed by like a storm
Cold, burning inside, I'm not the same
I've changed my ways

Dawn hunting my dreams
Fear, silent I scream
Pain growing inside, I'm not the same
I've found my way

Nothing is the same anymore
The times have changed, I feel so cold

Hate is ripping my guts
Light is blinding my eyes
Fools, spare me your lies, my ears are deaf
My mind is black

God - where is your god?
Pain - there's my god
Death - come for me now, end my pain
Show me the way

Everytime, everywhere
Everdawn, everfear
Nothing more, nothing less
All is done, all is said

Nothing is the same anymore
The times have changed, I feel so cold

Everytime, everywhere
Everdawn, everfear
Nothing more, nothing less
All is done, all is said
