

Real

Saved by grace we found in You, we love to tell our story

How You made our lives brand new, following You only

We are walking in Your truth, living for Your glory

Now we resonate with You

We will stand as one for the King of the world

Let salvation come, salvation come

CHORUS

Real love has changed us, real hope invade us

You illuminate us

We've got a world to change, they gotta hear His Name

Real life is freedom, so now with freedom we will run

We will be a witness, real love, real life we'll

illuminate

(1st ending)

(Repeat Verse & Chorus)

CHORUS

Real love has changed us, real hope invade us

You illuminate us

We've got a world to change, they gotta hear His Name

Real life is freedom, so now with freedom we will run

We will be a witness, real love, real life we'll

illuminate

CHORUS 2

I'm not ashamed, I'm not afraid, real love, real life

we'll illuminate

I'm not ashamed, I'm not afraid, real love, real life

we'll illuminate

(Repeat three times)
