

Lover Be Strong

Gavin DeGraw

No matter what happens, I see you on the other side
There's too many distractions, waiting for the perfect time
I know you're alright, by the friends you keep
It'll all be fine, depend on me

Oh, oh, oh lover be strong while I'm gone
And if you feel like falling, just hold on
Because everybody knows what this all we had
Everybody wants and they want it bad
Oh, oh, oh lover be strong while I'm gone

Just under the radar, a thread approach is slipping in
On another stormy morning, another issue could begin
But you heard these lines and these echoings
You ignore them all till your wedding day

When you look and tell me love, just return
I'll be waiting here for you, and you do

Lover be strooong (4x)
Ohh
