

# Spell It Out

Gavin DeGraw

With my eyes wide open  
And with words unspoken  
I still understand

And I'm reading your mind  
Using every outline  
You're drawing in my hand

Ooo, feel your fingers  
Ooo, I'm in way too deep

To wake up  
Step out  
Cause I'm really getting used to being in this dream  
You know what I mean I  
Can't find  
Any reason I would ever wanna turn back now  
Once you spelled it out

Oh, when I first met you  
There were things I'd been through  
That I would never tell

But it was almost as if  
You already knew my language  
Cause you'd been there yourself

Ooo, I'm still falling  
Ooo, don't make me return

And wake up  
Step out  
Cause I'm really getting used to being in this dream  
You know what I mean I  
Can't find  
Any reason I would ever wanna turn back now  
Once you spelled it out

I know it's not an accident  
I can feel it crashing in  
And I'm not pushing back

Come on, we can leave the world behind  
Close the curtains, shut out the light  
Just state the good  
Don't let me go  
Don't tell me I should

Wake up  
Step out  
Cause I'm really getting used to being in this dream  
You know what I mean I  
Can't find  
Any reason I would ever wanna turn back now  
Once you spelled it out

Once you spelled it out

Once you spelled it out
