

Black Ghost

Gay Dad

There's a black ghost on my trail
Won't go away, won't disappear
Black ghost never fails to get his way

I'm gonna run like hell down the longest road
When I turn around he'll be waiting there I know
Black ghost knows me well

Out of my time a troubled dreamer keeps calling
On someone or something
Out of my mind a troubled dreamer keeps looking
For something or someone to
Free me, free me, let me go please

Though I try to shake him free
I know that he's a part of me
Black ghost living on, he knows me well

Out of my time a troubled dreamer keeps calling
On someone or something
Out of my mind a troubled dreamer keeps looking
For something or someone to
Free me, free me, let me go please
Over and over and over again
And I know what I know, what I know, what I know, it's done

He's coming down
He's with me now
Black ghost by my side

He's with me now

There's a black ghost on my trail

Won't go away, won't disappear

Black ghost never fails to get his way

Though I try to shake him free

I know that he's a part of me

Black ghost living on he knows me well

Out of my time a troubled dreamer keeps calling

On someone or something

Out of my mind a troubled dreamer keeps looking

For something or someone to

Free me, free me, let me go please

Over and over and over again

And I know what I know, what I know, what I know, it's done

He's coming down

He's with me now

Ghost coming down

Black ghost by my side
