Black Ghost

There's a black ghost on my trail Won't go away, won't disappear Black ghost never fails to get his way

I'm gonna run like hell down the longest road When I turn around he'll be waiting there I know Black ghost knows me well

Out of my time a troubled dreamer keeps calling On someone or something Out of my mind a troubled dreamer keeps looking For something or someone to Free me, free me, let me go please

Though I try to shake him free I know that he's a part of me Black ghost living on, he knows me well

Out of my time a troubled dreamer keeps calling On someone or something Out of my mind a troubled dreamer keeps looking For something or someone to Free me, free me, let me go please Over and over and over again And I know what I know, what I know, it's done

He's coming down He's with me now Black ghost by my side

Gay Dad

He's with me now

There's a black ghost on my trail Won't go away, won't disappear Black ghost never fails to get his way

Though I try to shake him free I know that he's a part of me Black ghost living on he knows me well

Out of my time a troubled dreamer keeps calling On someone or something Out of my mind a troubled dreamer keeps looking For something or someone to Free me, free me, let me go please Over and over and over again And I know what I know, what I know, what I know, it's done

He's coming down He's with me now Ghost coming down Black ghost by my side
