### Gay Dad

pain I had as a child  
dark sky I knew for a while  
thoughts I have as a man  
take me back there again  
could I forgive you  
I know that I can  
could I survive you  
I think that I have  
well I burned all the bad news  
that was a weight off my mind  
that was a weight off my mind

pain take a look at me now  
see me back from the blue  
shake the dust from my shoes  
only the hurt there to harm you  
peace be easy  
I know you could use it  
it wasn't that hard getting by without it  
I burned all the bad news  
and that was a weight off my mind  
a weight off my mind  
you've got your trouble in mind  
you've got your trouble in mind  
trouble in mind  
you've got your trouble in mind  
trouble in mind  
trouble in mind
