

Prisoner

Gazpacho

So I've been feeling kind of dizzy
With an aching in my head
I've only come to realise that everything they ever said
Made me feel like I was tied to every little whim or need

Of their obscurity

I fell asleep
Down on my knees
Staring at lives
Lived on my TV
Time was speeding up
Spinning round and round
It never matters more
Than when you're running out

I say members of the jury
Don't you think I am being fair
When all those late nights seem to run in orbit around me
Turning into a career
Even talking to you feels like wasting time I could have
used
Under a lucky star I stand accused

Cause I fell asleep.....
