

Big Women

GBH

Big women, I like the size, big women flabby thighs.
Big women, big women, big women .. they fill my eyes.

Oooh a a ah !

Here they come, walking down the street, big and bouncy look so
neat.

I like them best between the sheets, big women give me a treat.

Skinny wenches will not do, I need a big one to see me through.
I've gotta get some meat to see me through the night,
in the morning I feel alright.
