

Faster Faster

GBH

A rapid night, and I'm feeling good,
I paid enough an' I guess I should.
I've gotta get up, I've gotta go,
It's two o'clock, I've gotta go, my watch is slow.

Faster faster, the race is on,
Faster faster, I think I'm gone.

I cannot sleep when I'm in this state,
my mind is running, accelerate.
I'm talking fast, not saying much,
you're so close and I want to touch.

Increase my intake of nicotine,
I've got a small problem if you know what I mean.
But you can help me if you can,
then I'll prove that I'm still a man.
