

Passenger On The Menu

GBH

They shocked the world cause they wanted to live.
They had no food, no alternative.
Lost in the snow weak in the mind.
Starving and cold ate their own kind.

Had no choice, lost and alone.
Eat the flesh, spit out the bone.

Malnutrition was setting in.
They needed protein and a will to win.
Cannibalism the only way ..
the logical answer to live another day.

A code of conduct they must go by.
No sign of help coming from the sky.
How much longer can they survive ..
with only human flesh to keep them alive ?
