

Self Destruct

GBH

Out on a limb, got no enjoyment, stoney broke, got no employment.

It's something no-one else can see, I've gotta end my misery.

Self destruct, self destruct, I said I'm gonna.

Self destruct, fill my head with a piece of lead.

Had enough of this recession, their bullshit caused my depression.

Their ways make me feel small, now I'm gonna end it all.

Count-down's over this is it, my life is spent it's now I quit.
Done my best to aid this caper, one less name on a piece of paper.

.. blow my brain
