

Left Of Me

Gemini Syndrome

Focus elude me
What a stupid game to play
The shadows that haunt me
Hide in just the same way

Mother can you
Can you come and save me?
I can't see you
But I'm afraid to look away
And I'm afraid to say

Nothing, nothing left of who I have been before
Broken pieces of me
Remind of something more

No one can take away
The things that I remember
The fire that used to burn
Is now a dying ember

Father will you
Will you try to help me
I wish I could
I wish I could help you see reality

Nothing, nothing left of who I have been before
Broken Pieces of me
Remind of something more
Choking, choking on the stories and lies you tell
Something is wrong
And now I stand beside myself

Nothing Left of Me
Nothing Left of Me

The puzzle's broken
It's scattered over the floor
The puzzle's broken on the floor

The puzzle's broken
It's missing pieces
And I was hoping
That the missing piece was me

NO

Nothing, nothing left of who I have been before
Broken Pieces of me
Remind of something more
Choking, choking on the stories and lies you tell
Taunting this long and now
I stand beside myself

The puzzle's broken
Nothing Left of Me
