

Graduation

Gemini

Time goes on and on, I told you the moment all day long
Time goes on and on, you're so strong, so wrong

Time goes on and on, I told you the moment all day long
Time goes on and on, you're so strong, so wrong

No one, no one here
Follow, follow fear
I am, I am here
Follow, follow fear

So long since I've been standing here
From the moment I met you it all became so clear
It's all in the moment, the future is near
You're so strong, so wrong, time goes on and on

No one, no one here
Follow, follow fear

No one, no one here
Follow, follow fear
