

Brightness

Gemma Hayes

(Hanging around EP)

there's a place inside my heart
got me living straight

found a place that i can fight for
got me living straight

you were the only one that could calm me down
come on over and calm me down

you're bright
so bright it cuts right though
you're brightness
so bright it cuts right though the menace

you take the blackness away
so the bad old feelings no longer stay
you're (?)
got me living straight

you were the only one that can calm me down
so come on over and calm me down

you're brightness
so bright it cuts right through
you're brightness
so bright, so bright, so bright
so bright it cuts right through
you're brightness
so bright it cuts right through, cuts right through
