

Chasing Dragons

Gemma Hayes

The morning has no sympathy, it just screams across the room
Making light of everything and taking you
Now I got a creature on my mind
Go chase your dragon and I'll chase mine

They say time is just one long straight line
they cant deaden a girl while she's still alive
well man, we've had one hell of a ride
Go chase your dragon and I'll chase mine

I know, I know, I know, I know
The sweeter it gets the deeper you go
I dont think we're coming back this time
Man, go chase your dragon, I'll chase mine

Now there's nothing left to say, that's true
So forget about me and I'll forget about you
Well I'm gonna find a way to catch that sun
Then I'll leave you behind my beautiful one
